

CELmar3-2

Marine and Land Based VHF and DAB/FM Antenna

CELmar3-2 is a lightweight fibreglass omnidirectional antenna. The CELmar3-2 is manufactured in premium quality materials to prevent galvanic corrosion. The antenna ferrule fits 1"-14TPI thread mounts directly. Mariner's favorite in many countries due to its excellent performance and dependability. Best antenna in both gain and pattern.

CELmar3-2 has been sold worldwide through more than two decades. The antenna is subject for improvement at all times. The antenna has the same rugged design as all other AC Antennas products thus it withstands harsh environmental conditions, both on sea and land.
