

# N280-04F

## Adaptor for cable inside mount

This adaptor is made from high quality chrome plated brass and has one internal 1" – 14 TPI thread and one external 1.25" – 11 TPI thread.

The adaptor can be used for installations where the cable is protected on the inside of the adaptor.

The external thread fits the N240F revolving nut for 1 ¼" 11 TPI which is supplied with many of the AC Antennas products. The adaptor can also be used to convert from 1" 14TPI thread to 1 ¼" 11 TPI thread.

### Mechanical Specification
